---

**W**e are a company built on a foundation of craftsman values. With techniques refined and passed on through four generations, we take pride in building windows and doors the right way. One at a time. Made to order. Crafted locally, with unmatched quality down to the smallest details, as if we were building

it for our own homes. And as a leader in innovation, Marvin® is dedicated to producing energy-efficient products that support a sustainable future. Our combination of master craftsmanship and virtually unlimited design capabilities make Marvin the best total value on the market today.

---

*Every window and door*

---

---

*built to the highest standard.*

*Built around value.*

---

---

Our dedication to building windows and doors the right way creates an unmatched value. Marvin® windows and doors are built to last, demonstrating and maintaining smooth, effortless operation over time. Each piece is crafted using real wood throughout, with exteriors that feature wood or long-lasting extruded aluminum cladding. And the same effort we put into crafting the highest quality products, we put into providing the highest quality service.

There's a reason you won't find Marvin Windows and Doors in the big box stores. Through independent, locally owned dealers, we are able to offer an unparalleled level of support and expertise. We work directly with our dealers, one-on-one, to ensure we find the best solution to make your dream a reality. Combine that with our industry-leading craftsmanship quality and limitless design options, and you can see what makes Marvin an exceptional value.

*Built around inspiration.*

---

---

Most manufacturers make you create your plans around their windows and doors. We do just the opposite. Marvin® gives you virtually unlimited design capabilities, offering the most extensive selection of shapes, sizes, styles and finishing options. Choose from our wide variety of standard products, each with the

ability to customize thousands of ways. Seven interior wood species options. Nineteen clad colors. Multiple glass and hardware options. And limitless divided lite patterns. Or, bring us a new idea that inspires you and we'll work together to bring it to life. It's this design flexibility that makes our windows and doors truly Built around you®.

---

*Built around  
efficiency.*

---

Low emissivity glass helps control temperatures in any climate.

---

With Marvin®, you don't have to sacrifice beauty to get the best in energy efficiency. We are committed to providing window and door options that will help control your long-term energy costs. Marvin offers an extensive roster of ENERGY STAR® qualified and NFRC certified products, as well as industry-leading R5 options. Whether it's multiple pane glass layers, reflective coatings to block ultraviolet rays, insulating gasses injected between panes, or advanced framing materials and design, we'll find the best option for your specific climate. All while providing our unmatched craftsmanship and made-to-order flexibility. Marvin lets you have it all. Timeless beauty paired with flawless function.

---

To learn more about our energy efficient solutions, see page 54.

# Product Components.

## THE PARTS AND PIECES OF PERFECTION

- 1 Our standard extruded aluminum exterior cladding is second to none in the industry. Think of it as a suit of armor covered with the ultimate finish. (To learn more, see page 56.)
- 2 A single area of glass is called a lite. Marvin® offers many different ways to create patterns of divided lites, each with its own special benefits. (See the possibilities on page 55.)
- 3 Hardware is the operating components of your window or door: locks, handles, hinges, etc.
- 4 A window or door frame has three different components that hold operating and/or stationary sash: A) the header across the top, B) the jambs down each side and C) the sill across the bottom. To match the thickness of your walls, jamb extensions can be used to create a frame that has the perfect depth.
- 5 You'll see the word "glazing" often. It refers to the glass in a window or door. (There's much more to it – see page 56 for the details.)
- 6 The sash is what you probably think of when you think of windows – it's the main section, operating or stationary, that is installed into the frame. The framework of a sash is made up of A) horizontal rails and B) vertical stiles. In a door, this component is referred to as a panel.
- 7 Ultrex® is a pultruded fiberglass-based material that provides our door sills with unmatched strength and durability. It's virtually impervious to time, weather and pressure so it won't transfer heat or cold, warp, dent, corrode or fade.

### CASEMENT, AWNING, AND VENTING PICTURE WINDOWS

Casements open and close from the side using a folding crank handle. Awning windows swing open from the bottom. Venting picture windows come in large sizes and open for cross-ventilation.

### BOW AND BAY WINDOWS

Bow and bay windows are created from multiple assemblies of windows. Bays can be created in multiple angles, and bows create a graceful arc. Choose from Ultimate Double Hung, Casement and picture unit configurations.

### DOUBLE HUNG WINDOWS

Windows that have two operating sash that slide up and down.

### GLIDER WINDOWS

Windows that open with ease on a horizontally gliding sash.

### SPECIAL SHAPE WINDOWS

Windows in a variety of geometric and circular shapes that can be used alone or in multiple assemblies.

### TILT TURN WINDOWS

Windows that open two ways: swinging in like a door or tilting in at the top for ventilation.

### SWINGING FRENCH DOORS

Originally referred to as two doors that swing open in the center, now any combination of operating and stationary door panels. Choose from inswing, outswing or arch top.

### SLIDING DOORS

Sliding doors deliver a unique combination of features and benefits – including unrivaled aesthetics, dependable performance, and smooth operation.

# THE ULTIMATE CASEMENT.

Every project requires a different kind of perfection. Marvin® introduces the Ultimate Casement collection. The collection of windows that offers you flexibility of application, design and size – sizes up to 40" wide by 92" tall to be exact. Add a revolutionary wash mode feature for easy cleaning, superior energy efficiency, and commercial grade hardware durability and you have just a few of the innovations Marvin is proud to introduce. Whether your project involves a new construction, replacement, or remodeling application, the perfect window lies within the Ultimate Casement Collection.

## REVOLUTIONARY WASH MODE

Revolutionary hardware allows for access to both sides of the glass from indoors.

## LARGE SIZES – ULTIMATE PERFORMANCE

We have developed the most durable hardware in the industry, which ensures easy opening and smooth operation over the life of your window.

Argon insulating glass.

# EASY CLEANING INSIDE AND OUT.

Gone are the days of ladders, scaffolding, or ignoring a dirty window because it's a chore to clean. With the new Ultimate Casement Collection, cleaning is a simple task. The revolutionary hardware allows the window to rotate inward, making both sides of the glass washable from the interior of the home. That means second-and third-story windows can be as easy to wash as your main-floor windows, so your views are always clean.

## EASY WASH MODE

Crank handle twice.

Push down on the hardware arm, and push the window away. Then crank arm back.

Swing window all the way open, pulling it across toward the lock for accessibility to exterior glass.

## ULTIMATE CASEMENT COLLECTION

ULTIMATE CASEMENT

ULTIMATE REPLACEMENT CASEMENT

ANY APPLICATION

## THEY'RE CALLED ULTIMATE FOR A REASON.

Today, more than ever, home design calls for versatility. The Ultimate Casement was designed to suit virtually any application. This means whether you are building a new home, remodeling, adding on, or looking at different style options, there is a perfect casement for your project. The Ultimate Casement features a full 4 <sup>9</sup>/<sub>16</sub>" jamb – making it perfectly suited for new construction or full-frame tear-outs – along with a recessed sash for a more traditional look. The Ultimate Replacement Casement offers a flush, more contemporary looking sash, and a narrow 2 <sup>3</sup>/<sub>16</sub>" jamb. The narrow jamb is perfect for new construction, remodeling or frame-in-frame replacement applications – allowing you to keep the existing frame or wallpaper intact.

### STANDARD FEATURES

- Full 4 <sup>9</sup>/<sub>16</sub>" or narrow 2 <sup>3</sup>/<sub>16</sub>" jamb options
- Revolutionary wash mode
- Satin Taupe folding handle
- Exclusive easy-installation features
- One-lite LoE<sup>2</sup>-272® with Argon insulating glass
- Extruded aluminum clad exterior (clad units)
- Bare wood interior

ULTIMATE AWNING & ULTIMATE REPLACEMENT AWNING WINDOWS

Full frame for a recessed traditional look.

### ULTIMATE AWNING

Narrow jamb for a more contemporary style.

### ULTIMATE REPLACEMENT AWNING

Awnings are a great complement to casements.

### DESIGN FLEXIBILITY

## INNOVATIONS THAT HEIGHTEN AND LIGHTEN.

The Ultimate Collection also offers Ultimate Awnings. Awnings open from the bottom, and can be used on their own or as a complement to casement windows. Ultimate Awnings can achieve wider than ever openings for better airflow and expansive, open views. And with the most durable hardware in the industry, Ultimate Awnings are available in larger than ever sizes – 72" x 72" or 72" x 63". For maximum visual impact and flexibility, picture windows are also available.

### STANDARD FEATURES

- Full 4 <sup>9</sup>/<sub>16</sub>" or narrow 2 <sup>3</sup>/<sub>16</sub>" jamb options
- Satin Taupe folding handle
- Exclusive easy-installation features
- One-lite LoE<sup>2</sup>-272<sup>®</sup> with Argon insulating glass
- Extruded aluminum clad exterior (clad units)
- Bare wood interior

### DETAILS

#### ULTIMATE REPLACEMENT AWNING

The Ultimate Replacement Awning features a narrow 2 <sup>3</sup>/<sub>16</sub>" jamb, making it the flexible solution for any remodel, replacement, or frame-in-frame application.

## ULTIMATE FRENCH CASEMENT WINDOWS

INTERIOR PUSH OUT

EXTERIOR PUSH OUT

EXTERIOR

## CLASSIC ELEGANCE, MODERN PERFORMANCE.

Traditional styling and modern features distinguish the new Ultimate French Casement. The newest windows in the Ultimate Casement Collection feature push out or cranking hardware and clean lines to let in maximum light. The Ultimate French Casement has no center stile or vertical post, making it ideal for those who want to enjoy an unobstructed view. And a Marvin® exclusive wash mode makes it easy to keep that view sparklingly clean. Built with strength, it has up to a DP50 performance rating. Strength, beauty and performance: the Ultimate French Casement is the ideal solution for any application.

### STANDARD FEATURES

- Full 4 <sup>9</sup>/<sub>16</sub>" or narrow 2 <sup>3</sup>/<sub>16</sub>" jamb options
- Revolutionary wash mode
- Oil Rubbed Bronze push out handle or Satin Taupe folding handle
- Exclusive easy-installation features
- One-lite LoE<sup>2</sup>-272® with Argon insulating glass
- Extruded aluminum clad exterior (clad units)
- Bare wood interior

### DETAILS

### ULTIMATE FLEXIBILITY

Open the window with a classic push out hardware system or choose a more modern cranking variation. Two jamb widths are available. The full 4 <sup>9</sup>/<sub>16</sub>" jamb on the Ultimate French Casement is ideal for full frame replacement and new construction. The narrow 2 <sup>3</sup>/<sub>16</sub>" can be used as a solution for frame-in-frame installation, remodeling or new construction.

ULTIMATE PUSH OUT & ULTIMATE ROUND TOP WINDOWS

## LOCKS AT THREE DIFFERENT OPENING ANGLES

The exclusive sash limiter device on the Ultimate Push Out allows you to pre-set and lock the window at specific opening angles. This means you can now safely open your window on windy days – just flip a lever to lock the sash securely in place.

### ULTIMATE PUSH OUT

### EXCLUSIVE SASH LIMITER

## WE'VE ROUNDED OUT THE ULTIMATE COLLECTION.

Completing the Ultimate Collection are the **Ultimate Push Out** windows. Push Out windows provide a more traditional alternative to crank-out style casement and awning windows. With a multi-point locking system, the Push Out is extremely easy to operate – just unlock a single handle to open the sash. Our exclusive sash limiter device also gives you the flexibility of locking the open window at your desired angle.

The Ultimate Collection also offers **Ultimate Round Tops**. You don't have to limit your vision to straight lines anymore. Round Tops can stand alone, making their own unique statement, or be used as a transom, complementing casements. With over 60 Round Top options, there's no shortage of design flexibility.

### ULTIMATE ROUND TOP

### OTHER ROUND TOP SHAPES

With over 60 different Round Top shapes, you'll enjoy unparalleled design flexibility.

## ULTIMATE VENTING PICTURE WINDOWS

INTERIOR

EXTERIOR

These are only a few designs for divided lites. Please see options section or [Marvin.com](http://Marvin.com) for more possibilities.

DESIGN POSSIBILITIES

## SOME PICTURE WINDOWS ARE WORTH MORE THAN A THOUSAND WORDS.

An expansive picture window is a beautiful way to bring natural light into a room or to highlight a lovely outdoor view. Now it can also be a source of fresh air. Marvin® Windows and Doors' Ultimate Venting Picture window is designed to open evenly on all sides, allowing for passive air exchange. An ingenious mesh screen system allows the sash to project out slightly,  $\frac{3}{4}$ " to 1" from the closed position, providing air flow around windows as large as 6' x 6' or 3' x 8'. The Ultimate Venting Picture window can add more than just a pretty view. Consider it an innovative alternative to traditional picture window choices.

### STANDARD FEATURES

- One-lite LoE<sup>2</sup>-272® with Argon insulating glass
- Stainless steel hardware system and Satin Taupe lock levers
- Bare wood interior
- Hidden screen
- Extruded aluminum clad exterior
- 4  $\frac{9}{16}$ " (116 mm) jambs

### HARDWARE

#### LOCK LEVER

#### DETAILS

The air flow provided by an open Ultimate Venting Picture Window can help with a building's ventilation when positioned strategically with other windows. By itself, the Ultimate Venting Picture window provides passive air exchange.

## ULTIMATE DOUBLE HUNG WINDOWS

INTERIOR

EXTERIOR

These are only a few designs for divided lites. Please see options section or [Marvin.com](http://Marvin.com) for more possibilities.

DESIGN POSSIBILITIES

## BOTH TRADITIONAL AND MODERN AT THE SAME TIME.

Window makers of an earlier era got a lot of things right. Sophisticated lines, profiles and proportions never go out of style. Marvin® Windows and Doors' Ultimate Double Hung combines a state-of-the-art window design with a classic style of the past. New advancements in engineering make Ultimate Double Hung windows simple to open. Marvin's exclusive integrated tilt lever lock allows the sash to be tilted in or removed for easy cleaning. And with so many options for sash sizes, glazing and lite patterns, you can dream up the ultimate window, and Marvin can build it.

### STANDARD FEATURES

- One-lite LoE<sup>2</sup>-272® with Argon insulating glass
- Satin Taupe sash lock
- Bare wood interior
- All wood brick mould casing (wood units)
- Extruded aluminum clad exterior (clad units)
- 4 9/16" (116 mm) jambs

### HARDWARE

#### SASH LOCK

#### SASH LIFT

(optional)

#### FULL & HALF SCREEN

Consider a full screen to cover your entire window or a half screen that covers only the lower portion. Choose from several mesh and surround options.

# GIVE ULTIMATE BEAUTY AN ARTFUL LINE.

Sometimes your vision includes an arching, elegant line. For that, we've got Ultimate Double Hung Round Top variations. Variations are available with options such as wood species and hardware finishes.

**Round Top 1**  
Standard Double Hung window with a half round elliptical transom.

**Round Top 2**  
Double Hung window with true radius upper sash and frame. Both interior and exterior have radius top.

**Round Top 3**  
Standard Double Hung window on the interior with arched exterior casing.\*

\*Available for wood windows only.

# ULTIMATELY EASY.

Not only do both lower and upper sash operate and tilt with ease, they're both completely removable without removing the screen. The jamb interiors are crafted with a generous amount of wood so you can stain or paint them to match the style of your home.

## Round Top 4

Double Hung window with eyebrow radius upper sash and frame. Both interior and exterior have a radius top.

## Round Top 5

Standard Double Hung with a rectangular sash and radius glass designed to have a round top appearance.\*

## Round Top 6

Standard Double Hung with a round top appearance from the exterior, thanks to curved exterior components. Interior has a standard frame with rectangular sash and radius glass.\*

The sash in locked position.

Unlocked position with tilt release open.

Sash tilting freely into the room.

ULTIMATE DOUBLE HUNG MAGNUM WINDOWS

INTERIOR

EXTERIOR

These are only a few designs for divided lites. Please see options section or [Marvin.com](http://Marvin.com) for more possibilities.

DESIGN POSSIBILITIES

## BEAUTY GOES BIG.

The Ultimate Double Hung Magnum can be designed as large as 5 1/2' wide x 10 1/2' tall so commercial buildings, historic renovations and new construction have no size barriers when it comes to beauty and protection. The high quality and performance of the spiral balance system make even the largest window a breeze to open. The sight lines and profiles match our Ultimate Double Hung family of products so your design options are greatly expanded. When you want magnum sizes with exceptional, real-wood construction, architectural appeal and commercial-grade performance, this is the ultimate window for you.

### STANDARD FEATURES

- One-lite LoE<sup>2</sup>-272<sup>®</sup> with Argon insulating glass
- Satin Taupe sash lock
- Bare wood interior
- All wood brick mould casing (wood units)
- Extruded aluminum clad exterior (clad units)
- 4 9/16" (116 mm) jambs
- Installation hardware

The Ultimate Double Hung Magnum Round Top provides options for large, high performance elliptical, eyebrow, and true radius shapes in double hung, single hung and picture unit styles.

ULTIMATE INSERT DOUBLE HUNG WINDOWS

INTERIOR

EXTERIOR

These are only a few designs for divided lites. Please see options section or [Marvin.com](http://Marvin.com) for more possibilities.

DESIGN POSSIBILITIES

## REVIVE THE BEAUTY WHEN YOU REPLACE THE WINDOW.

With the Ultimate Insert Double Hung replacement window you have a beautiful alternative to vinyl replacement windows. There's no need to take out the current frame, remove trim or replace wallpaper. The frame-in-frame design is crafted specifically to your window opening so it fits perfectly into the existing space. Options like a flat frame or frame bevels ensure a snug fit. The sash even tilts or comes out for easy cleaning so there's less work and more time to enjoy the scenery. And Marvin® Windows and Doors' vast array of hardware finishes, wood species and clad colors means you'll get the exact look you want.

### STANDARD FEATURES

- One-lite LoE<sup>2</sup>-272® with Argon insulating glass
- Satin Taupe sash lock
- Bare wood interior
- All wood exterior (wood units)
- Extruded aluminum clad exterior (clad units)
- 4 <sup>9</sup>/<sub>16</sub>" (116 mm) jambs (wood units)
- 3 <sup>1</sup>/<sub>4</sub>" (82.5 mm) jambs (clad units)
- Installation hardware

### HARDWARE

#### TILTING SASH

The hardware easily operates with one hand so hard to clean areas become accessible with the tilt feature.

TILT PAC® DOUBLE HUNG SASH REPLACEMENT KIT

TILT PAC® DOUBLE HUNG KIT

## THERE'S NEW LIFE FOR YOUR OLD WINDOWS.

With the Marvin® Tilt Pac, replacing the sash on your double hung window is an exercise in simplicity. This sash replacement kit is designed specifically for replacing older double hung windows; the Tilt Pac is ideal if the frame is in good shape, but the sash or hardware need replacement. Both sash are fully operational and tilt in for easy cleaning. Create or match the lasting look you want with a variety of divided lites, screens, and hardware finishes. Everything you need is included so all it takes is just four simple installation steps and you'll be admiring the brand new, great looking, energy efficient windows you've been dreaming about.

### STANDARD FEATURES

- One-lite LoE<sup>2</sup>-272® with Argon insulating glass
- Satin Taupe sash lock
- Bare wood interior

## BOW AND BAY WINDOWS

**BAY INTERIOR AND EXTERIOR**

## BOW

## BAY

**ANGLE OPTIONS**

# OPEN UP TO THE POSSIBILITIES OF MARVIN® BOW AND BAY WINDOWS.

A Bay or Bow window from Marvin turns an ordinary wall into an extraordinary expression of your own personal style. Adding openness and space, they're perfect for creating a window retreat and bringing the outdoors in. Have your Bay or Bow designed with any number of windows, angles, and finish options. Made with our Ultimate Casement, Ultimate Double Hung or Picture Unit configurations, we assemble our Bows and Bays to give your home a look that will draw admiration from both the indoors and out.

## STANDARD FEATURES

- One-lite LoE<sup>2</sup>-272® with Argon insulating glass
- Bare wood interior
- All wood brick mould casing (wood units)
- Extruded aluminum clad exterior (clad units)
- 4 9/16" (116 mm) jambs

## DETAILS

### BOW AND BAY OPTIONS

Bows and Bays can be used to add height and light to any room. Curved, laminated head and seat boards can be factory applied for your Bow and Bay windows to create a seamless wood interior and perfect fit.

## ULTIMATE GLIDER WINDOWS

INTERIOR

EXTERIOR

These are only a few designs for divided lites. Please see options section or [Marvin.com](http://Marvin.com) for more possibilities.

DESIGN POSSIBILITIES

## SIMPLE STYLING, SOPHISTICATED FEATURES.

Innovative operation and contemporary styling describe the Ultimate Glider. The simple lines and the unique design of the Glider, like the automatic locking system, differentiate it from other sliding windows. The convenience of an easy cleaning feature plus energy efficiency provide excellent performance – making the glider a perfect choice.

### STANDARD FEATURES

- One-lite LoE<sup>2</sup>-272<sup>®</sup> with Argon insulating glass
- Satin Taupe sash lock
- Bare wood interior
- All wood brick mould casing (wood units)
- Extruded aluminum clad exterior (clad units)
- 4 <sup>9</sup>/<sub>16</sub>" (116 mm) jambs.
- Beige sill track

### HARDWARE

### EASE OF OPERATION

The easy-to-use folding handle, tucks into the sash for minimal visibility. The lock system automatically engages when the window is slid shut so the window locks automatically. The ergonomic handle is placed low on the sash to provide easy, one-handed operation.

TILT TURN AND HOPPER WINDOWS

INTERIOR

EXTERIOR

Turn the handle and the window opens like a door. Turn it some more and it locks the bottom of the sash into the frame, tilting the top in to allow generous air exchange.

TILT TURN OPERATION

## THE WINDOW THAT ACTS LIKE A DOOR.

Once you see the versatility and style of our Tilt Turn and Hopper windows, you'll understand why they're so popular in Europe. Tilt Turns swing open like a door or tilt at the top of the sash for overhead ventilation. One simple handle controls all the action. An emergency exit, a window and a door all built into one. The Hopper is situated horizontally, so it virtually "scoops" air into the room. Add your own preferences for finish and hardware options, and these windows are nothing short of amazing.

### STANDARD FEATURES

- One-lite LoE<sup>2</sup>-272<sup>®</sup> with Argon insulating glass
- Bronze handle
- Bare wood interior
- All wood brick mould casing (wood units)
- Extruded aluminum clad exterior (clad units)
- 2 <sup>13</sup>/<sub>32</sub>" (61 mm) jambs

### HARDWARE

#### HANDLE

ROUND TOP, POLYGON AND SPECIAL SHAPE WINDOWS

These are only a few designs for divided lites. Please see options section or [Marvin.com](http://Marvin.com) for more possibilities.

## DESIGN POSSIBILITIES

## THINK OUTSIDE THE BOX AND LET MARVIN® CREATE YOUR WINDOW.

Make your unique vision a reality. Marvin Round Tops come in full, half and quarter rounds, ellipticals, inverted corners, ovals, gothic shapes, eyebrows and more. Our Polygon windows can be created in virtually any geometric shape – octagons, hexagons, trapezoids, pentoids and triangles. Use one for an accent or create a marvelous multi-window display. Marvin offers thousands of standard round top sizes plus unlimited options with customization so you can create a view that's anything but square.

## STANDARD FEATURES

- One-lite LoE<sup>2</sup>-272® with Argon insulating glass
- Bare wood interior
- All wood brick mould casing (wood units)
- Extruded aluminum clad exterior (clad units)
- 4 9/16" (116 mm) jambs
- Interior pine trim and plinth blocks (round top units)

## DETAILS

### SPECIAL SHAPE, ROUND TOP AND POLYGON WINDOWS CAN BE CONSTRUCTED ONE OF TWO WAYS:

#### DIRECT GLAZE

Direct Glaze maximizes the light coming through the window. Glass is set directly into the window frame, maximizing the glass surface of the window.

#### IN-SASH

In-Sash windows have a sash that is set in the frame of the window. In-Sash is a great option when you want to match the sight lines of other windows or doors in your house.

## ULTIMATE SWINGING FRENCH DOORS

INSWING

OUTSWING

## THIS DOOR KNOWS HOW TO MAKE AN ENTRANCE.

Unmatched in fit and finish, our Ultimate Swinging French Doors offer you a remarkable amount of design flexibility with trusted Marvin® quality. The inswing model accentuates any interior with generous amounts of space while the outswing is ideal for high traffic areas or limited interior space. Designed to the nth degree, most come with a DP40 rating for commercial-grade performance. And the sill is made with super tough Ultrex® – so your sill doesn't warp, rot, corrode or fade over time.

### STANDARD FEATURES

- Tempered, one-lite LoE<sup>2</sup>-272® with Argon insulating glass
- Multi-point locking system on the active panel
- Head and foot bolts on inactive panel
- Satin Taupe adjustable hinges
- Oak liner on beige Ultrex sill
- Bare wood interior
- All wood brick mould casing (wood units)
- Extruded aluminum clad exterior (clad units)
- 4 9/16" (116 mm) jambs

EXTERIOR

These are only a few designs for divided lites. Please see options section or [Marvin.com](http://Marvin.com) for more possibilities.

DESIGN POSSIBILITIES

## EVEN YOUR PATIO DOOR CAN HAVE UNRIVALED PERFORMANCE.

Sophistication and contemporary design are matched with smooth operation to create doors that perform beautifully. Our Sliding Patio Doors feature two large glass surfaces that allow light to make a grand entrance into any room. Three-inch stiles and rails plus a sill made from super tough Ultrex®, a pultruded fiberglass material, add to the sturdiness and performance, while features like the harp-shaped handle provide an elegance that elevates a patio door to perfection.

### STANDARD FEATURES

- Tempered, one-lite LoE<sup>2</sup>-272® with Argon insulating glass
- Two-point locking system
- Oak liner on beige Ultrex sill
- Bare wood interior
- All wood brick mould casing (wood units)
- Extruded aluminum clad exterior (clad units)
- 4 9/16" (116 mm) jambs

DETAILS

#### ULTIMATE TOP HUNG SCREEN DOOR

Aluminum top hung sliding screen with roller bar, adjustable rollers and replaceable bottom guide create smooth operation. The exterior profile replicates the look of a traditional wood screen.

BI-FOLD DOORS

## THE LUXURY OF INDOOR/OUTDOOR LIVING.

An elegant, contemporary solution, our Bi-fold Door opens wide to infuse a room with fresh air and spectacular views. The Bi-fold Door, configuring two to eight panels, can create an opening up to 21' wide by 8' high. That's large enough to extend the interior right out into the garden or the veranda, or to connect with another room. Door panels travel easily on an extruded aluminum track and fold neatly to one side. The unit can incorporate an ADA or floor channel sill option for an even more seamless transition.

### STANDARD FEATURES

- Tempered, one-lite LoE<sup>2</sup>-272<sup>®</sup> with Argon insulating glass
- Bare wood interior
- Available in wood or extruded aluminum clad exterior
- Outswing service panel (based upon configuration)
- Mortise latch or multi-point locking systems on service panel
- Adjustable hinges
- Elite hardware system created for folding doors in exterior residential and light commercial applications

#### ECLIPSE E3™

The eclipse e3™ hardware system equips each carrier with a patented "Sure-Lock IITM" adjusting system. Once engaged, it prevents slippage.

## ULTIMATE LIFT AND SLIDE DOORS

## ADD 500 ACRES TO YOUR FLOOR PLAN.

You don't want anything to stand between you and your view. That's why Marvin® designed the new Ultimate Lift and Slide. Available in stunningly large sizes, up to 60' wide, and in several panel configurations, they allow for a seamless transition from the exterior to the interior of your home. The Lift and Slide comes in both Pocket and Stacked configurations. In the Pocket configuration, panels slide into wall openings and completely disappear from the exterior to the interior of your home. Now you can let more than just fresh air into your home – with Marvin's Lift and Slide doors, you can let the outdoors in.

### STANDARD FEATURES

- Tempered, one-lite LoE<sup>2</sup>-272® with Argon insulating glass
- Bare wood interior
- Extruded aluminum clad exterior (clad units)
- All wood brick mould casing (stacked wood units)
- 2 3/4" thick panels
- Bronze PVD hardware
- Exclusive Flush Mount handle and exterior finger pull
- 3/16" exposed track above finished floor height
- Sill options available in anodized bronze aluminum (std.) or anodized mill finish

### HARDWARE

#### HANDLE

Our industry-exclusive Flush Mount hardware blends beautifully into the door for a clean aesthetic. The intuitive design provides ease of operation.

#### DETAILS

#### STACKED

Available in pocket or stacked configurations. Pocket shown on opposite page.

## ENERGY EFFICIENT.

Marvin® Windows and Doors are engineered for energy efficiency. Choosing the right windows and doors is essential for long term savings on utility bills. Marvin wood and wood clad windows are more energy-efficient than vinyl or all aluminum windows. Every Marvin window is hand-crafted and built to exactly fit your specifications, better fit means less money spent on heating and cooling your home. Your Marvin dealer can recommend the best options, production and glass choices for your climate.

### ENERGY EFFICIENT GLASS OPTIONS

- Double-pane with Argon gas
- Tripane glazing features two layers of LoE glass with a clear center pane
- LoE<sup>2</sup>-272® features double metallic coating on the inside glass surface to reflect or absorb the sun's warmth and reduce damaging UV rays
- LoE<sup>3</sup>-366® features three metallic layers of silver, this glass rejects solar heat. Recommended for warm climates where cooling costs are high and also for areas with intense exposure to the sun

Most Marvin products are qualified for energy efficiency in all regions of the United States by the federal ENERGY STAR® program. Look for the ENERGY STAR label for your assurance of top performance.

### HIGH PERFORMANCE

There's no need to sacrifice the WOW factor for the U-factor.

Marvin has over 800 NFRC certified glazing options that perform to .20 or lower. Available in a wide variety of products and configurations, high performance glazing assures you of increased energy efficiency and comfort.

### TRIPANE WITH KRYPTON

Tripane with Krypton allows Marvin windows to deliver even greater energy efficiency. This new option adds the remarkable insulating properties of Krypton to the proven performance of Tripane construction. Krypton, a blend of Krypton as the primary gas with Argon and air, reduces the already impressive U-factor of Tripane with Argon by about .03.

# DIVIDED LITES

## SIMULATED DIVIDED LITE (SDL)

SDL is an energy-efficient way to create the look of divided lites. SDL bars are permanently adhered to both sides of the glass.

## SIMULATED DIVIDED LITE WITH SPACER BAR

SDL bars are combined with spacer bars installed between the glass, creating the essence of Authentic Divided Lites.

## AUTHENTIC DIVIDED LITE (ADL)

Separate panes of glass are glazed between muntin bars – the way windows have been made since the beginning. Now, Marvin's state-of-the-art design adds traditional appeal. (Available for wood units only.)

## GRILLES

Solid wood Grilles on the interior offer the look of classic divided lites, but can be easily removed for cleaning.

## GRILLES-BETWEEN-THE-GLASS (GBG'S)

Grilles are permanently installed between the glass panes. This low-maintenance grille is available with a two-tone option.

# GLASS, HARDWARE FINISHES AND CLAD COLORS

## GLASS OPTIONS

Marvin® offers a broad array of specialty glass options. Choose clear, patterned or decorative glazing or have our artisans create a special glass just for you. Contact a Marvin representative for availability.

# WE BUILD MARVIN® EXTERIOR CLAD PRODUCTS TO LAST.

Our extruded aluminum is substantially stronger than roll-form aluminum. Marvin exterior clad products are so strong, they exceed the American Architectural Manufacturers Association's toughest specification (2605-05) for aluminum cladding, which requires extruded aluminum and a 70% Kynar® finish. The interior of our clad products is made of wood, which greatly increases thermal efficiency. Strength, performance and beauty makes Marvin tough to beat.

## TIME EXPOSURE-FADING

These panels illustrate the superior resistance to fading that our flurospar with 70% Kynar 500 has over standard finishes used in roll-form and vinyl.

Marvin Polyester Powder

Marvin Urethane

Marvin Polyester

Marvin Silicone Polyester

## MARVIN CLAD

The difference in strength is similar to the difference in the thickness of an industrial chair versus an inexpensive lawn chair.

## EXTRUDED ALUMINUM CLAD FINISH

Lasting durability starts with a chemical reaction. During manufacturing, we create a chemical bond between the extruded aluminum and Flurospar®, a fluoropolymer finish with 70% Kynar 500® – an advanced and extremely hard finish. Extrusions go through a five-step pre-treatment process that includes cleaners, rinses, and surface preparation to ensure the Flurospar finish adheres smoothly. Our extrusions are formed, then painted, which means a quality paint adhesion unlike roll-form which is painted then formed.

This means beauty is not interrupted by chalking, pitting, fading, erosion and marring. Your Marvin clad products will retain color and gloss for years to come. We wouldn't settle for anything less.

## ROLL-FORM VINYL

Roll-form aluminum isn't much thicker than a pop can. It is easily bent and damaged. Most windows using roll-form aluminum come standard with a less expensive paint coating which can easily fade, chalk and scratch.

Vinyl expands and contracts due to heat and cold. Couple this issue with the damaging effects of UV light, the vinyl will eventually chalk and fade. This constant climatic attack breaks the vinyl down, leaving a brittle, faded shell behind.

## TIME EXPOSURE-CHALKING

These microscopic images illustrate the superior resistance to chalking that Flurospar with Kynar 500 has over standard finishes. Notice the heavy pitting that occurs over time which results in chalking.

- Creates a seamless wood interior
- Screen mesh comes masked to allow no-mess staining or painting of the wood surround
- Hi-transparency screen mesh comes standard with wood screen surround
- Patented

## ULTIMATE DOUBLE HUNG SCREEN OPTIONS

### FULL SCREEN

Exterior screen with an aluminum surround.

### HALF SCREEN

Exterior screen with an aluminum surround. The screen covers only the lower portion (bottom sash) of the window.

### TWO-LITE WOOD STORM SASH OR SCREEN

A wood frame containing non-removable glass. The storm sash can be removed during the summer and replaced with a wood framed screen. Available only for wood windows.

### ENERGY PANEL

Often confused with storm windows, an Energy Panel is technically a glazing option. It is a removable, exterior glass panel finished on the edges by a surround. Energy panels cover the exposed glass surface of each sash and offer added energy efficiency for wood windows with single glazing.

### STORM AND SCREEN COMBINATIONS

A combination unit is composed of two glass panels and one screen panel.

- Panels can be configured multiple ways to accommodate season or preference: glass above screen, screen above glass or glass above glass
- One of the glass panels slides behind the other for self storage when the screen is in use
- Panels can be easily removed from the interior for cleaning. Available with a wood (bare or primed wood) or aluminum surround

## RETRACTABLE SCREEN

Discover the Retractable Screen from Marvin® Windows and Doors. The Retractable Screen provides the perfect solution for new or existing cranking and Push Out Ultimate Casement and Awning windows. When a screen is needed, simply glide the retractable screen across the window to put the Retractable Screen in place. When wide open views are needed, the Retractable Screen effortlessly integrates into the jamb of the window. When the screen is in the closed position, it is virtually undetectable. Imagine never having to remove screens from windows again, but still being able to enjoy the benefits of a wide open view or a window screen as easily as opening and closing window treatments.

- Simply pull the screen from side to side for easy operation on casement windows
- Concealed system seamlessly blends in for beautiful views
- Installation friendly system – easy to remove, clean, paint or stain
- Pull the screen from top to bottom on awning windows

## LOW PROFILE SILL

### PERFORMANCE AND ADA COMPLIANCE

The Low Profile Sill from Marvin Windows and Doors is a new and innovative sill option that provides for a smooth transition between exterior and interior living spaces. The patent-pending Low Profile Sill combines two elements: universal design where a flush threshold is desirable and high performance. The Low Profile Sill is an example of an innovative design coupled with the craftsmanship of Marvin windows and doors that offers exceptional performance and beauty.

Compatible with both wood and clad Ultimate Sliding French and Sliding Patio Doors, the sill can be paired with any standard sliding door panel configuration, providing the same design flexibility and reliability that distinguishes all Marvin products.

## CERTIFIED WOOD

### SFI CERTIFIED WOOD AND FSC CERTIFIED WOOD

Marvin Windows and Doors has routinely purchased raw lumber from reliable suppliers certified to the Sustainable Forest Initiative® (SFI®), a program that supports sound forest management. Marvin products are now available with chain of custody certification for either SFI certified products or FSC certified products. SFI operates in North America, while the Forest Stewardship Council™ (FSC®) operates worldwide to assure biodiversity and high conservation of forests along with humane labor practices. With SFI and FSC chain-of-custody certification, Marvin Windows and Doors is meeting the growing demand from governments, customers and consumers for forest products from responsible sources.

Chain of custody for either certification means that the wood in your Marvin product has been tracked from the forest from which it was harvested, through manufacturing and distribution, to the building where it is installed. Each process along the way has been third-party certified to meet environmentally responsible criteria established by FSC or by SFI.

DOORS

LOCK SYSTEMS

CONCEALED MULTI-POINT LOCK

ACTIVE PANEL

Keyed, Multi-point (Standard)  
Concealed multi-point lock with stainless steel head and foot bolts activated from a keyed, lever handle. Compatible with a standard handle or with handles from Marvin® Architectural Hardware. No lock, no bore option is available.

INACTIVE LOCKING PANEL

Manual head and foot bolts (Standard)  
Multi-point lock (optional)  
Concealed multi-point lock with stainless steel head and foot bolts activated from a lever handle, matching active panel escutcheon and lever.

TOP LOCK

HANDLE LOCK

BOTTOM LOCK

HINGES

Butt and Adjustable Hinges are available in a variety of finishes including Satin Taupe, White, Brass, Satin Nickel, Oil Rubbed Bronze, Satin Chrome, and Antique Brass. Butt Hinges are also available in Goldtone.

DOOR SILL AND WEATHER STRIP OPTIONS

BEIGE ULTREX®

Sill and weatherstrip (Standard)

BRONZE ULTREX

Sill and weatherstrip (Optional)

Ultrex is a pultruded fiberglass-based material that is unmatched in strength and durability. It's virtually impervious to time, weather and pressure so it won't transfer heat or cold, warp, dent, corrode or fade.

DOOR SCREENS

SLIDING TOP HUNG

ULTIMATE TOP HUNG

STANDARD SWINGING

ULTIMATE SWINGING

Aluminum top hung sliding screen with adjustable rollers and replaceable bottom guide. Available for both wood and clad-wood Sliding Patio Doors and Ultimate Sliding French Doors.

Aluminum top hung sliding screen with roller bar, adjustable rollers and replaceable bottom guide. The exterior profile replicates the look of a traditional wood screen. Available for both wood and clad-wood Sliding Patio Doors, Ultimate Sliding French Doors and Ultimate Inswing French Doors.

This tough extruded aluminum swinging screen door specifically designed for use with Ultimate Inswing French Doors provides solid protection and outstanding performance. The frame is made of the same thick metal as our cladding so both the profile and the finish match the exterior of your door perfectly.  
Automatic closer standard for swinging screen.

The exceptional Ultimate Swinging Screen Door features Marvin exclusive hardware and unmatched aesthetics. Choose the optional Storm Panel Inserts for harsher climates. Screen and Storm panels remove without tools.  
Available for wood and clad Ultimate Inswing French Doors and Ultimate Arch Top French Doors.

## STORMPLUS.

With Marvin® Windows and Doors' StormPlus products and the superior performance of LoE<sup>2</sup>-272® glass, you'll have beauty and style that provides you with amazing views even through the harshest of conditions. During a hurricane, StormPlus offers protection from the brutal pushing and pulling of high-speed winds. StormPlus products are rigorously tested and certified for energy efficiency, driving rain, impact resistance and cyclic pressure. So though they may look like glass, they act like shields, protecting against flying debris and providing additional security against break-ins and even outdoor noise.

### IMPACT ZONE 2

- Products meet International Building Codes for coastal and near-coastal areas in Atlantic and Gulf Coast states.
- Withstands winds from 120 mph to 129 mph
  - Stands up to wind borne debris test: 4' long 2x4 stud shot at 40' per second
  - Extensive +/- pressure testing (9000 cycles)
  - IZ2 Products are certified through the WDMA and listed in the FL state database

### IMPACT ZONE 3

- Products meet International Building Codes for many East Coast states, from Rhode Island to Florida to Texas
- Withstands winds from 120 mph to 140 mph
  - Stands up to wind borne debris test: 8' long 2x4 stud shot at 50' per second
  - Extensive +/- pressure testing (9000 cycles)
  - IZ3 Products are certified through the WDMA and listed in the FL state database

### IMPACT ZONE 4

- Products meet Miami-Dade County and Florida state versions of the International Building Code
- Withstands winds beyond 140 mph
  - Stands up to wind borne debris test: 8' long 2x4 stud shot at 50' per second, multiple times
  - Extensive +/- pressure testing (9000 cycles)
  - IZ4 Products are approved by Miami-Dade County Notice of Acceptance (NOA) and listed in the FL state database

### STANDARD FEATURES

- Laminated glass to protect against impact from debris such as tree branches or construction materials.
- Reinforced sash, frame and locking points
- Aesthetically unobtrusive hardware reinforcements that secure the sash to the frame.

StormPlus products are named and tested to coincide with the American Society for Testing and Materials zones reference within the International Building Codes.
